LOVERS OF MUSIC REVEL IN HARMONY

RENO PLEASSED WITH COMPANY THAT APPEARS TOMORROW NIGHT IN ELKS' HALL

The concert given last evening in the assembly hall of the high school under the auspices of the Lyceum committee, marked an epoch in musical circles in Reno. The musicians, three in number, Leeta Corder, soprano; Lavina Zenti, contralto, and Thomas Valentine Purcell, basso and violinist, constituted a trio of musical stars such has have seldom been heard here.

The program was a diadem of gems, rare and exquisite. In solo, duet or trio, the three voices were distinct and blended with unusual harmony that evoked prolonged applause by those who appreciate good music.

In magnitude Leeta Corder ranked first, with a soprano voice of marvelous quality and range and which she had under perfect control. Slight and slender of stature, she stood before her audience and in liquid tones true and pure as a bird's she seemed to soar to infinite heights without visible effort. No tremor marred the tones which thrilled and thrilled at times in the wildest abandon of expression and again in the softest echo like a distant whisper.—Journal.

WHITE PINE MAY GET A CARLOAD OF ELK

The board of county commissioners of White Pine county are in receipt of a letter from Secretary of State Brodigan announcing that a carload of elk from the government reservation in Montana could be had by White Pine county by the payment of freight on the animals, which amounts to \$350 at Carson City. As the elk would come from the east, it is probable that the freight rate to Ely would be considerably less than the rate to Carson City. The matter was referred by the board to the White Pine Rod and Gun club, which is expected to take favorable action on the proposition within the near future. If the elk are received it is probable that they will be protected for a few years by the forest rangers and also by legislative enactment.—Ely Record.

RECOMMENDATIONS BY THE GRAND JURY

Report Presented Last Night to Judge Mark R. Averill in the District Court

Following is the report of the Nye county grand jury, which was submitted at 9:15 o'clock last night to Judge Averill:

To the Honorable Mark R. Averill, Judge of the Fifth Judicial District Court of the State of Nevada, in and for Nye County, Tonopah, Nevada.

Sir:—In compliance with law, we have the honor to make our final report to you on the deliberations of this body for the year 1915.

Through committees appointed by the foreman, we have endeavored to investigate all matters relating to the public welfare and interest, and the results of our conclusions are embodied herein.

Criminal Law

We found seven true bills as a result of evidence being presented to us as follows:

State of Nevada vs. Jack Bardness, Guard Kelsey, N. Richmond, Harry L. DeGroot, Victor Barron, William Hall, D. Morris.

We have conducted four investigations, the nature of which charges we do not deem it necessary to review herein, for the reason that sufficient evidence was not presented to us upon which to return indictments.

The general conditions of the county in respect to law and order we found to be generally satisfactory. However, there are certain infractions of the law, which occur from time to time by reason of certain classes of people using deadly weapons and we regret that it is not within our power to prevent the pernicious practice of carrying concealed weapons. The correction of this evil would save injury and many lives of good and peaceful citizens who suffer by reason of the evil, and also eliminate a heavy portion of the ex-

penditure of the county. We believe the practice of carrying concealed weapons should be remedied. This practice might prove a little more expensive in the beginning, but we believe would justify by the wholesome respect that would be instilled into violators of the law when they realize that they must without exception answer for crime when committed. It is evident that if those who disobey the law are aware of the fact that they will be taken to task without exception, when they commit crimes that are against the peace and dignity of their community, it is apparent that it will not only have a good effect upon the community at large, but serve to reduce the number of offenses.

SUFFRAGE AMENDMENT OPPOSED BY WILSON

EFFORT TO CROSS-EXAMINE THE PRESIDENT MEETS WITH FAILURE

(By Associated Press.)

NEW YORK, Jan. 27.—President Wilson today refused to support the movement for an amendment to the constitution of the United States providing for woman suffrage. He spoke briefly to the congressional union for woman suffrage, saying that he felt that suffrage should be dealt with by the states. The efforts of Mrs. Mary Beard, wife of a Columbia university professor, to cross-examine the president, met with failure. He refused courteously to reply to queries. The main purpose of his visit is to deliver before the railway business association tonight a speech, to open his preparedness campaign.

EMBARGO ON MUNITIONS FOR 60 DAYS PROPOSED

(By Associated Press.)
WASHINGTON, Jan. 27.—An embargo on war munitions for 60 days, or until the grain congestion in this country is relieved, was proposed in a resolution introduced today by Representative Sloan, of Nebraska, Republican.

pense of conducting examinations by grand juries in bringing in indictments. At times the law is broken in this respect and by reason of the fact that the injured party cannot be compelled to appear against the culprit, on account of intimidation or some other cause, the culprit has either never been brought to trial, or dismissed, and after having been indicted, allowed to go free to continue if he so desired, his pastime of inflicting injury on some fellow being as the fancy might move him.

We believe the practice of dismissing culprits who have broken the law without an attempt to give them the punishment deserved, should be prevented unless under extreme circumstances; also that the indiscriminate practice of carrying concealed weapons should be remedied. This practice might prove a little more expensive in the beginning, but we believe would justify by the wholesome respect that would be instilled into violators of the law when they realize that they must without exception answer for crime when committed. It is evident that if those who disobey the law are aware of the fact that they will be taken to task without exception, when they commit crimes that are against the peace and dignity of their community, it is apparent that it will not only have a good effect upon the community at large, but serve to reduce the number of offenses.
